Cala Forte Rosso 2023

Maremma Toscana DOC

This wine embodies the essence of the Maremma region and is produced under the sun of the hot Tuscan summer. Rich in intense aromas, it is harmonious and persistent. It is very drinkable and pleasant, perfect with savoury first courses, game and red meat.

Climatic trend

The start of the 2023 vintage was characterised by lower-than-average temperatures and abundant rainfall. Rising temperatures in July brought the year's averages back in line with historical averages. From August until early autumn (grapes continued to ripen into this season), temperatures significantly exceeded historical averages. This, as well as the lack of any rainfall, the strong solar radiation and the warm southerly winds that blew over Tuscany, reversed the trend compared to spring 2023. The harvest featured no rainfall and refreshing sea breezes, thus allowing us to obtain healthy grapes and harvest them at the best time.
