Faunae 2020

Chianti Classico DOCG

The embodiment of an unchanged and uncontaminated environment, Faunae expresses the true essence of Chianti Classico, crafted with the utmost respect for the breathtaking landscape around us.

Climatic trend

The spring of 2020 saw budding take place at the start of April, a few days earlier than the previous year. Spring continued with no significant temperature fluctuations and some moderate showers, followed by a windy summer. By the time harvest came around, the grapes were perfectly mature and excellent quality.

Technical notes

Wine Variety: Sangiovese and complementary varieties
Alcohol content: 13.5%
Maturation: 12 months in steel

Tasting notes

The 2020 Faunae is ruby-red in colour. There are fruity and floral aromas on the nose, with delicate spicy notes to finish. Some of the most distinctive fruity notes include berries, cherries and wild strawberries. Harmonious and dry on the palate, it has nice tannins that age well over time. It also boasts a fascinating sapidity. Soft and velvety.

Wine pairing: This elegant and structured wine is ideal with grilled meats, aged cheeses and exotic dishes.
