

Faunae 2021

Faunae 2021

Chianti Classico DOCG

The embodiment of an unchanged and uncontaminated environment, Faunae expresses the true essence of Chianti Classico, crafted with the utmost respect for the breathtaking landscape around us.

Climatic trend

The winter of 2021 saw weather that was not too severe, but there was some frost and rainfall. The spring thaw and rising temperature allowed the vines to bud in mid-April. The mild spring temperatures helped the foliage develop well, forming a complete and extensive wall of leaves. Much of the credit for the extraordinary year must in any case be attributed to the summer, which was not only particularly hot but was also characterized by two light rainfalls at the end of August. The harvest that began in mid-September was blessed with sunny days and normal temperatures that characterised the 2021 vintage, making it an extraordinary harvest.

Technical notes

Wine Variety: Sangiovese and complementary varieties

Alcohol content: 13%

Maturation: 12 months in stainless steel

Tasting notes

Faunae 2021 has a ruby red colour and a typical bouquet where floral and fruity notes blend harmoniously. Hints of red and black berries followed by perfectly distinguishable hints of violet and rose are accompanied by a delicate spiciness. The palate is fresh, savoury and has tannins that refine over time.

Wine pairing: This elegant and structured wine is ideal with grilled meats, aged cheeses and exotic dishes.
