

## Castello Pomino Pomino 2004

### Pomino 2004

Pomino Bianco DOC

This superbly elegant and stylish blend of Chardonnay and Pinot Bianco comes from one of Tuscany's greatest white-wine growing areas, grown in vineyards at elevations as high as 700 metres.

## Climatic trend

This year the harvest has begun 15-20 days later than in 2003, when, due to the drought in the spring of that year, the harvest began notably earlier than usual. 2004 was distinguished by its close to normal season, with a cooler spring than those of the preceding years, and a delayed budding. During the summer the temperatures stabilized below the norm for the season, and only in the last two weeks of July did they begin to climb. The soils are well drained yet at the same time have a substantial water reserve. The cool and mild nights will help produce elegant wines. The bunches are sparse, and the berries are in very good condition, both in terms of size as well as structure and concentration.
