Santa Maria 2021

Morellino di Scansano DOCG

Produced for the first time in 2000. Young and dynamic, Santa Maria Morellino di Scansano presents itself as a fresh, soft and fruity wine, ideal for any occasion.

Climatic trend

The 2021 season will be remembered as a dynamic year. After a rainy and mild winter, which had led to a slight advance of budding, the temperatures dropped sharply at the beginning of April, slightly slowing down the growth of the shoots. From May onwards, temperatures rose, leading to a summer that will be remembered both for the beautiful day-into-evening excursions and for the long period of intense heat. The grapes were harvested in perfect health, thanks to the mild temperatures and low humidity.

Technical notes

Wine Variety: Sangiovese and Cabernet Sauvignon
Alcohol content: 13.5%
Maturation: 12 months in steel

Tasting notes

Santa Maria 2021 has a beautiful bright ruby red colour. The bouquet is represented by intense fruity notes of cherry, plum and wild strawberry. Time also brings out delicate citrus notes that are accompanied by hints of spiciness. On the palate it is lively and fresh. Tannins present. Characterised by a warm softness. Harmonious and persistent.

Wine pairing: Stewed meats such as rabbit or chicken, but also excellent with medium-aged cheeses.
