

Tenuta Ammiraglia Terre More 2022

Terre More 2022

Maremma Toscana Cabernet DOC

Terre More is made from Cabernet sauvignon grapes with small additions of Merlot and Syrah. Intense and elegant, it is characterized by its modern taste without losing its connection to the territory it represents.

Climatic trend

Winter 2021/2022 was characterized by good precipitation, as was spring 2022. This situation generated a proper subsurface water supply. Sprouting occurred a few days later than normal, but rising temperatures led to smooth vegetative development. Summer days with above-average temperatures led to splendid ripening of the grapes. As a result, the aromatic development was magnificent. Sunshine and refreshing sea breezes were the perfect companions during the harvest period; both allowed the plants to achieve a compositional balance that was an expression of this microclimate. The most genuinely Mediterranean expression of Tuscany.

Technical notes

Wine Variety: Cabernet sauvignon and with small additions of Merlot and Syrah

Alcohol content: 13%

Maturation: in barrels

Vinification and ageing

The carefully harvested grapes were delivered to the winery; the destemming and mashing process followed here in steel tanks. Fermentation took place at a controlled temperature. This was followed by a period of maturation in second- and third-passage French oak barrels. The further period in bottle allowed the wine to balance and express itself to its full potential.

Tasting notes

Terre More 2022 shows a wonderful ruby red color with purplish highlights. The bouquet ranges from notes of red and black berry fruit and more Mediterranean hints of myrtle and juniper. Beautiful spice, accompanied by tertiary notes of tobacco. The palate is lively, fresh with a dense, silky tannic texture that enhances the wine's structure. Enveloping, with a long and persistent finish.
